

Questionnaire for custom products

Customer data / contact person	
Company name / customer number	
Contact person	
Contact details of contact person (email / phone number)	
Project time period	

Basic requirements for the customer process	
Brief description of application process	
Size of the load (dimensions in mm L x W x H)	
Batch size	
Loading weight (kg)	

Parameter values	Parameter values	Process tolerances
Temperature in °C		
Humidity in % RH		
CO ² in %		
O ² in %		
Vacuum in mbar		
Heat or humidity compensation?	<p style="text-align: center;">Yes</p> <p style="text-align: center;">Heat in watts, humidity in % RH.</p>	No

Ambient conditions		
Temperature range in °C		
Humidity in % RH		
Air conditioning	Ja	Nein
Installation situation / installation layout		
Existing connections (electricity 230V / 400V, water, compressed air, CO ² , N, vacuum, etc.)		
Delivery situation / installation situation		
<p> Please consider the following points when transporting to the installation site: smallest possible door dimensions, elevator availability, floor of the installation site, floor load capacity in kg</p>		
Miscellaneous		

Customizations / options	Page / description
Scope of custom construction specification	
Individual requirements, desired dimensions exterior / interior (L x W x H)	
 Individual requirements include: weight load, material requirements for interior design, low-silicone design, adjustments to the control and regulation software, etc.	
Additional information / specifications / applicable documents	
 These include data sheets, drawings, images of specified specifications, standards, material data.	

Notes / sketches
