

END-OF-SERVICE DECLARATION

Dear Sir or Madam,

at Memmert, we prioritize transparency and service quality, while committing to a supported lifetime of our devices of 10 years. We would therefore like to inform you of an important update to our product portfolio. Some of our appliances have not been manufactured for over ten years. Consequently, these products have reached End of Service (EOS) status.

Spare parts availability

EOS status naturally impacts the availability of spare parts. This means that only the current stock can be sold. Reproduction of parts is no longer possible. Maintenance and repair of these devices can only be carried out after availability has been confirmed.

If you require parts for an EOS device, however, please contact our International After Sales department. Our team of service experts will be happy to check if the item is in stock.

Contact us

If you have any questions about this, please email us at service@memmert.com. We look forward to hearing from you.

Best regards,

Your Memmert International After Sales Team
