

IF30mplus

The incubator Im is a Class I medical device.

The heating of this incubator is optimally tuned for forced air circulation, the fan can also be switched off completely, and valuable chamber loads are warmed up very carefully.

On this page, you can find all the essential technical data on our incubator. Our customer relations team will be pleased to help if you want further information. If you should require a customised special solution, please contact our technical specialists at sales@memmert.com.
